

THE ART OF CASHING OUT

How To Become A Stealth Carder

CONGRATULATIONS!

You've just made **ONE OF THE**, (if not ...) ,**THE BEST** decision in acquiring “ **THE ART OF CASHING OUT**” , in your pursuit of becoming **THE MOST** efficient **STEALTH CARDER** you know!

Knowledge is **POWER**, but that's not even close to what it actually takes to become a **Stealth Carder**.

Therefore, you must be **PASSIONATE** about **CARDING** in order to **EXECUTE** it successfully, and **GET AWAY WITH IT!**

So...if **you're not passionate** about this particular lifestyle and you're just looking for a quick get rich carding method, this Guide is **NOT** for you, but if **YOU'RE LIKE ME**, waking up and going to sleep thinking about this, testing new ways, improving the methods, discovering new possibilities, **cashing out, not getting caught & enjoying life on my terms**, then I am gladly welcoming

You on my community and happily share my valuable knowledge gained along the way!

Without further due, let's start diving! You Ready?

CHAPTER ONE

Cleverly, little by little!

You want to have the right mindset! When carding, don't CARD too much at a time! CARD cleverly, little by little!

The results over time are dwarfing when comparing with the other way around, not to mention the experience, patience, confidence and your own safety gained along the way by doing so.

CHAPTER TWO

Preparation is Everything !

To reach your END GOAL and achieve SUCCESS, YOU need to put in the groundwork!

Before starting any attempt on carding make sure you're preparing your system! Carding from Mobile is doable but NOT recommended!* **Stick to THE END to learn a Verified Method**

Here's what you need to know about

HARDWARE CONFIGURATION

ETech 7

HARDWARE & CONFIGURATION

- Computer or Laptop
- RDP for Win https://5socks.net/Manual/rdp_eng.html
- MAC address CHANGER <http://www.zokali.com/win7-mac-addresschanger>
- MAC Spoofer <https://medium.com/@sunknudsen/spoof-your-mac-address-automatically-at-boot-on-macos-using-spoofmac-7030b1e74d16>

SOFTWARE & CONFIGURATION

- Firefox Configuration <https://www.youtube.com/watch?v=tQhWdsFMc24>

- Browser Extensions :

-**FoxyProxy** simplifies configuring browsers to access *proxy*-servers - <https://addons.mozilla.org/en-US/firefox/addon/foxyproxy-standard/>

-Automatically change the user agent after specified period of time to a randomly selected one, thus **hiding your real user agent** - https://addons.mozilla.org/en-US/firefox/addon/random_user_agent/

-**Cookie-Editor** lets you efficiently create, edit and delete a cookie for the current tab - <https://addons.mozilla.org/en-US/firefox/addon/cookie-editor/> -

- Socks5 Providers <https://limeproxies.com/> (Affordable)_
<https://www.luxsock.su> (Expensive)
<http://www.premsocks.com/> (Best Value for Money)

- VPN <https://nordvpn.com/>

- <https://mullvad.net>

Mullvad onion link :

<http://o54hon2e2vj6c7m3aqqu6uyece65by3vgoxh1qlsvkmacw6a7m7kiad.onion>

- CC Cleaner <https://www.ccleaner.com/>

Once you have everything in place and configured, you're **Almost** ready to!

****If you already have a bank drop or a paypal drop or both, you can skip to **CHAPTER THREE!**

FULLZ

Head on to Asap Market , bohemia , kingdom , vice city , incongito market on Dark Web and get yourself some FULLZ.

Check markets links here :

<https://dark.fail/>

<https://tor.taxi/>

<https://darknetlive.com/markets>

If you're really new to this, then you can only access Dark Web via TOR - <https://www.torproject.org/download/> and darknet Markets via <https://www.deepwebsiteslinks.com/darknet-markets-links/>

Fullz means the full information of a person, including name, address, credit card information, social security number, date of birth, and more.

****As a rule of thumb, the more information you have on your target, the more money you can make off of those credentials. A **DRIVING LICENSE** scan is a **MUST** .**

Look online for services like <https://doriandocs.com/>

IMPORTANT! ALWAYS Connect Your System, SOCKS5 / VPN, time zone, browser & computer's language to your target's AREA / REGION / ZONE. Check your status here -> <https://whoer.net/>

and follow the steps until you get 100% Anonymity!

PRO TIP** Make a photo with your phone on the informations/FULLZ before starting creating any accounts!

Don't SWAP between browser tabs, **DON'T COPY PASTE** anything, manually add all the informations!

Using the FULLZ , first create an email address (hotmail or gmail) matching the target's name, use a VoiP service like <https://justcall.io/> for SMS verifications services, open a Chime bank account - <https://www.chime.com/>, order your card (set card delivery address to YOUR DROP).

Wait about 7 days to receive the card, then activate it!

CONGRATULATIONS! You now have a fresh drop bank account with a CC.

Next step! Keeping the same settings matching target's informations (state, time zone, browser language etc) head on to PayPal and create an account, then link the Chime bank account & card, verify them (takes 1-2 days for bank account to get verified) as well as the email and phone number!

Use a service like :

<https://www.smscodes.io/>.

[Lazersms.com](https://lazersms.com)

Or Download SmartLine - For SMS verification (PayPal. Google, Hotmail).

CONGRATULATIONS!

You now have a verified PayPal account, ready to use! Repeat the process as much as you want!

PRO TIP** Every time you are logging into your Drop PayPal's Account, log in with the same setup / IP as you created **ELSE** sometimes you won't be able to send or receive funds for 72H, if you're logging in from different Ip's, user agent etc.

ALWAYS DOUBLE CHECK EVERYTHING AND ALWAYS HAVE YOUR INFO ORGANIZED!

***Typically with a verified PayPal you can cash out about **10K\$** before going dead!

So make sure you always have a DROP BACKUP!

CHAPTER THREE

Excellence is The Next Five Minutes!

- ✓ Create a one product or a general store (fashion store is the best) via Weebly <https://www.weebly.com/> and choose the business package (the one which allows online payments). You can pay for it with a non vb CC, very easy this one! Buy a cheap domain name from <http://netim.com/> .
- ✓ Head to Stripe <http://stripe.com/> , and create an account using your fullz, when it comes to business details, use a company which operates in your target's zone! Choose a small company where its details are easy to find, hence easy for Stripe to check & verify online! They'll not ask for any documentation if they can verify the info provided online.
- ✓ **PRO TIP ***** Google your Targets name and find out if he is associated with any company! You might hit the **JACKPOT!**
- ✓ They will ask for your DL and bank statement / proof of address but fortunately you have those ready :) #chimeftw .

- ✓ After fulfilling all the info, add your drop bank account for payouts! Wait for verification & activation (usually 1 day at most) and you're going to be ready to take LIVE payments!
- ✓ Go to Weebly and connect both PayPal & Stripe! DONE!
CONGRATULATIONS!

This step is **VERY IMPORTANT**

- Go to your website, create a 1-2\$ product and buy it!

This is to ensure that 1'st STRIPE LIVE payment is succesfull! **Don't card** anything yet! Hold your horses,
You're a PRO NOW!

Stripe will send the first payout into your bank in about 7 days!

Following Payouts occurs every **3 days**, but the 1'st one takes longer! This is very good for the automation to kick in!

This is also great for you to test your DROP. When the funds hit your drop, send those to your own bank! Now you have completed the cycle!

Now you will start card small amounts (200-400\$ max) per transaction!

Don't use the same card **twice** on your shop! If you know for sure the balance of the card, and let's say it has about 1k left or whatever, use a different method for cashing out the rest!

Paysend <https://paysend.com/> worked really well for me! Non verified accounts allows sending funds up to 1K USD!!! Use a NON VB CC, properly connected with SOCKS5 to your Target's area, and send payments to your DROP BANK via CC in app.

You know what to do when any funds hit your bank drop :)

Easy cash out!

CONGRATULATIONS!

I haven't forgot :) At the beginning of this Guide I promised I'll tell you about a mobile carding method I'm using!

Create a **TransferWise** <https://transferwise.com/> personal Account & Business Account too in your target's name! Easy & fast to create!

You're going to upload the DL and then you must send from your drop bank 20\$ in your newly created **TransferWise** account.

Once verified, go into the business account and tap on **Add USD** * in app* -> **add via credit card!** Use a **NON VBV CC** too card in that way!

Make sure you're connected to your target's zone area (Socks5/VPN), your mobile is set on flight mode & date & time is matching your target's area! Cleverly, little by little, **150-250\$**.

That's **INSTANT CASH** into your TransferWise Account! Now you can send those funds to your bank account, and remember....

**ALWAYS CARD SMALL AMOUNTS (max 400) AND CARD
ONCE per METHOD per CARD Voila :)**

Wake early, take more !

We all have goals, but to be a **Stealth Carder** you must be focused & dedicated! You must know, understand and follow these skills for setting and attaining your goals every time. I wish you good luck with whatever goals you set – may they be achieved in the finest of style.
